REASONS FOR ALLOWANCE

The amendment filed on October 12, 2004 has been entered. The specification and claims 2, 3, 10 and 11 have been amended, and claim 1 has been cancelled.

Claims 2-11 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 2, the only independent claim, has been amended so as to include the limitations of claim 1. The previous Office action rejected claims 1 and 2 as being anticipated by DE 19845690 C based upon the characterization of the German patent document as an "X" category reference in the international search report. This rejection is hereby withdrawn because it is not clear that the compensation spring mechanism 44 in the '690 reference performs in the same manner as recited in claim 2.

Neither the '690 reference or any of the other prior art of record taken alone or in combination appears to disclose or fairly teach a clutch actuating device including the actuator motor, transfer mechanism and compensation spring mechanism arranged together and functioning in the manner specified in claim 2, and particularly wherein the transfer mechanism has a first movement range in which movement of the actuating member in an opening direction does not cause displacement of the clutch from a closed position and a second movement range in which movement of the actuating member causes displacement of the clutch, wherein the transfer mechanism has an

interval of loose play which is used up in the first range, and the spring mechanism introduces a first force/displacement characteristic into the movement of the actuating member within the first range, the displacement of the clutch in the second range follows a clutch displacement characteristic, and in the second range the clutch characteristic is superimposed on the first force/displacement characteristic.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard M. Lorence whose telephone number is (703) 308-3062. The examiner can normally be reached on Mondays through Fridays from 9:00AM to 5:30PM.
